

'RETIRED' MEMBER/REGISTRANT POLICY

Congratulations on your retirement!

As a 'Retired' Member or Registrant you are permitted to volunteer, without remuneration, as a mentor or trainer in the field of engineering and applied science technology or carrying out no more than 100 hours of work per year for compensation.

In all activities the 'Retired' Member must abide by the ASTT Act and Regulations and ASTTBC Council policies (including Code of Ethics and Continuing Professional Development requirements) regarding practice guidelines, standards and processes.

'Retired' Members and Registrants are required to inform potential clients or employers of their practice limitations.

A 'Retired' Member or Registrant is defined as a current Member or Registrant in good standing with ASTTBC, who has reached the age of 55 or older, and has decided to become non-practicing or provide limited works and services per Council approved policy for 'Retired' status.

The ASTTBC registry will show you having a retired status; however, you are not required to show ('Retired') after your certified designation.

If you have any questions or concerns, please visit the ASTTBC website at www.asttbc.com or e-mail: techinfo@asttbc.org.

I have read and understood ASTTBC's retirement policy and agree to not engage in engineering or applied science technology or a scope of practice beyond the practice limits establish by ASTTBC Council Policy.
